[width=0.8]figures/dog_theory.png

Figure 1: $\ddot{y}$ vs y for the system $\ddot{y} + \frac{1}{2}y^2 = 0$. The plot shows a single trajectory starting at $y = 0$ and $\ddot{y} = 0$ and moving towards $y = 1$ where it reaches a maximum value of $\ddot{y} = 1/4$.
